

## **AFFINITY CONSULTING GROUP NAMED NETDOCUMENTS PLATINUM PARTNER**

**Largo, Florida – April 26, 2019** – Affinity Consulting Group has been named a NetDocuments Platinum partner, making the consulting company one of only six worldwide to have received this recognition in the inaugural designation.

NetDocuments partners provide a unified sales, implementation, integration, and service experience for their clients. The Platinum partner designation is reserved exclusively for top-performing companies that demonstrate a genuine commitment to the partnership and to the NetDocuments platform. Platinum partners achieve an exemplary level of customer satisfaction and consistently reach the program’s highest revenue tier.

NetDocuments Partner Program Manager Steve Moulton says, “It’s been fun to watch Affinity quickly rise to become a Platinum NetDocuments partner. We would never be able to keep up with the 30% year-over-year growth we’ve experienced without Affinity. We have been and will continue relying on them heavily.”

NetDocuments debuted its partner program at its 2018 ndElevate event in Park City, Utah. The program relies upon a “partner value score” to assign partners to tiers. In addition to revenue, factors impacting a partner’s score include workflow analysis and design, advanced data migration services, system audits, custom application integration, and training and floor services.

“We have worked with some of the largest and most complex NetDocuments implementations in law firms and legal departments across North America”, says Affinity partner Ron Warman. “Our team is well versed in all aspects of an implementation, including workflow analysis, change management, complex data migrations, user acceptance testing, custom development as well as training and floor support. The ability to handle every aspect of an implementation sets us apart.”

According to Moulton, “It’s easy to see why firms are quick to choose Affinity. Their comprehensive offering of NetDocuments services allow firms to spend less time focusing on technology and more time practicing law.”

**About Affinity Consulting Group:** Affinity Consulting Group is a law firm management and legal technology consulting company that inspires, enables, and empowers legal teams of all sizes to work more efficiently. The company’s holistic approach addresses the roles of people, process, and technology in optimizing performance.
